VISITOR MANAGEMENT

ACCESS CONTROL

LOGICAL ACCESS CONTROL

Our general philosophy is based on the development of full web, full IP solutions with anticipation of all your hardware and software needs.

Why ?

To meet all security needs with a single application and a single badge.

For Who ?

From a secure door, the AddLock software is intended for all types of companies (industries, IT services companies, services, administrations, etc.).

Its web interface and mobile application allow a simple and fast access to all the company's interlocutors according to their rights.
